

APRIL 19, 1880

10-CENTIMOS DE PESO GREEN

TAMPERED STAMPS

1888 Issue

It is assumed the 10-c Green issue stamp was not released for postal usage until it was surcharged in magenta to 2-4/8c in 1888. No genuine used examples of the un-surcharged 10c green issue are recorded. All 'used' examples seen to date are tampered stamps wherein the magenta surcharge applied in 1888 have been carefully bleached out, with tiny remnants of the surcharge remaining visible under magnification.
