

POSTAL STATIONERY OF THE PHILIPPINES
UNITED STATES ADMINISTRATION

Scott U30 - Scott U34
2c JOSE RIZAL ENVELOPES

First issued in 1908, the dies were especially designed for use in the Philippines by the Bureau of Engraving and Printing, Washington D.C, USA. This 2-centavo design, featuring Doctor Jose Rizal, was in use for nearly thirty years and were produced by the same contractors manufacturing United States envelopes of corresponding watermarks, as follows:

- Mercantile Corporation, Dayton, Ohio (issues up to 13 June 1915)
- Middle West Supply Company, Dayton, Ohio (issues up to 31 December 1928)
- International Envelope Corporation, Dayton, Ohio (remaining issues)

Due to the length of this issue and the different contractors involved, the paper stock varies in quality and shades. A total of 759,000 envelopes on white paper were issued (UPSS-43 to UPSS-80). The amber, buff, blue and manila envelopes were issued in limited quantities as specified against each issue where known.

2c Green
(Doctor Jose Rizal)

KNIFE TYPES

The term “Knife” refers to the shape of an envelope, more specifically the shape of the paper before it is folded. Knife is the technical term for the cutters of the machine by which the envelope blanks are cut out. In philately, it is principally used to denote the varieties in shape of the United States envelopes, where the back shows several varieties in the cutting of the flaps.

Fortunately, there are not as many Knife variations on the US pre-stamped envelopes that were overprinted for use in the Philippines. Generally, these are classified as “low back” or “high back” types, differentiated by the top section on the reverse side of the envelope as detailed in the following Knife Types.

(1929-1932)

Type 33
(1933-1936)

CORNER CARDS

A number of “General Request” envelopes were produced for general over-the-counter sales and were supplied to the post office in large quantities. They were produced with dotted lines in the upper left corner, with the intent of encouraging purchasers to write in their name and return address details.

The “General Request” corner cards differ from the “Special Request” envelopes which were furnished on special order for individual postal customers and were printed with the purchaser’s own name and address.

“General Request” envelopes were first produced for the Philippines with the oval die issue of 1907 (both 2c and 4c values). A total of six types are known to have been printed for the 2c Jose Rizal envelopes. Additionally, a Money Order /Giro Postal Printing was also produced.
